AERO-S3DP

Smart system for real-time indoor and outdoor air quality monitoring

Solar Powered

Capable of running independently on solar power

Network Agnostic

Wide range of connectivity options like GSM / WiFi / LoRa / NBioT / Ethernet

Over-The-Air Update

Automatically upgradeable from a central server without any onsite visit

**Machine-Learning**

Compact

Light-weight and compact system installed at 12-15 feet (3.5-4.5 m) height

Real-Time Data

Continuous monitoring and real-time data transfer at configurable intervals

Weatherproof

IP65 grade enclosure for endurance against harsh weather conditions

Calibration free

H_2S · Rn · NH_3 · CO_2 · VOC · db · SO_2 · NO_2 · CH_4 · CO · O_3 · PM
