

# AMR-S3DP

Smart system for real-time airborne microbial monitoring

### Machine-Learning

### Network Agnostic

Wide range of connectivity options like GSM / WiFi / LoRa / NBioT / Ethernet

### Over-The-Air Update

Automatically upgradeable from a central server without any onsite visit

**Sens Solutions**

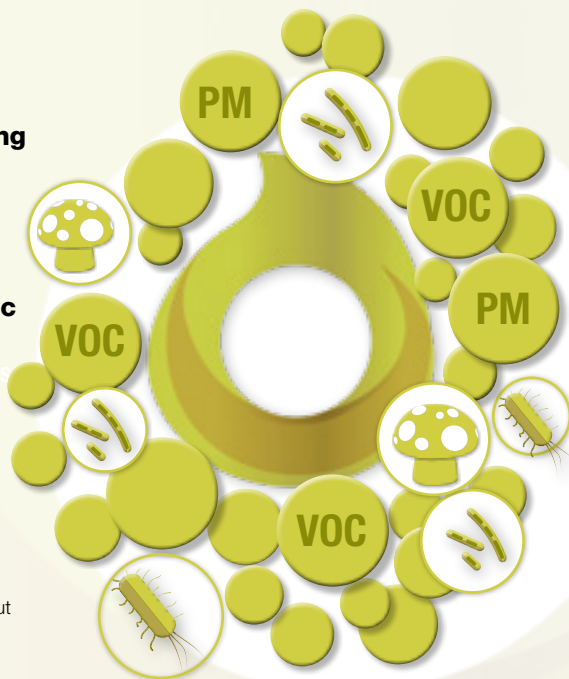

**Environmental Protection**

**ACC10**  
Competitivitat per l'empresa

**Generalitat de Catalunya**

### Compact

Light-weight and compact system installed at 12-15 feet (3.5-4.5 m) height

### Real-Time Data

Continuous monitoring and real-time data transfer at configurable intervals

### Connectable

Hospital management system compatible

### Calibration free
